

Solana Ranch Canyon

11/22/2021

Action

South California Hikers from Hiking Heroes went on the Snail Trail on November 22nd. The trail was energizing and uplifting. It was the first hike that this chapter of Hiking Heroes went on. Everyone collected trash on the trails and everything went well!

Experience

The club went on the hike right when fall break started, so it was a great way to kick off into the break!

All the hikers were active in picking up trash, but what was surprising was how much trash the members picked up. Though the trail itself looked fairly clean, much of the trash was hidden between bushes and plants. With careful searching, the club was able to fill a few bags of trash.

Member's Thoughts

For many, it had been a while since they had gone on a hike. Hiking Heroes members were quite pleased with the work they were able to contribute to the environment and felt refreshed after a morning in nature. We are very excited for our next event!
