

# MCGONIGLE CANYON TRAIL

01/08/2022

## Experience:

On January 8, 2022, members of the Southern California Hiking Heroes visited the McGonigle Canyon Trail. This hike was greatly different from our previous one at Snail Trail, as it was steeper and evidently had more trash to pick up, mostly consisting of plastic bottles. It was overall an exciting way to start the morning and new year, and the hikers were proud of their overall work.

## Reflection:

Despite this trail being a little more challenging than the last, the weather was very nice and the members were given the chance to spend quality time with their peers out in nature. As the very first hike of the new year, we look forward to the future hikes 2022 will bring!
